How it works

1. Apply. Submit your business for financing in the Whop dashboard.
2. Offer. Eligible buyers review their available financing terms at checkout.
3. Get funded. Receive sale proceeds less fees under your account's settlement terms, while the provider handles buyer repayments.

Before you apply

A verified Whop Payments account, an eligible offer, a dispute rate below 2%, and at least $30,000 processed from 10+ customers in the past 90 days. Merchant and buyer approval are separate.

Next step: Apply from Payouts or while creating a checkout link. Contact Whop Support if ClarityPay is not available.
